Web Designing

- Provide unique and 'out of the box' design solutions to the clients.
- Work on variety of challenging projects that required research, study and plannings.
- Provide visually appealing and better user experience and interface.
- High end knowledge of current industry web design standards.
- Passion for designing user-friendly & responsive structure.

UI Architect

- Exposure into working in front end technologies.
- Collaborate with team to come up with the best user interface based on user experiences.
- Experience with look and feel, usability, placement of layout.
- Passion for developing functionally rich applications with a keen interest on enhancing the usability of the product.

Other Skills

Stationary & Graphic Design

• Good experience in creating Brochure's Templates, Powerpoint Presentations, Branding Material, Banners, Letterhead Design, Facebook Page, Landing Pages, One Pagers, Email Newsletters and many more stationary products.

Photography

• A photograph is not created by a photographer. What they do is just to open a little window and capture it. The world then writes itself on the film. The act of the photographer is closer to reading than it is to writing. They are the readers of the world.
